Good morning, Mary-Ann,

Thank You very much for Your Letter dated June 29th, 2023, which I received Wednesday, July 5th, concerning Your audit of 'My' tenant account with Multifaith Housing Initiative. I appreciate You bringing this Matter to My attention.

This Matter was brought to My attention sometime in the later part of last year (2022) by Lori Simpson. Without reviewing My emails for accuracy, I believe Lori first made Me aware of this Issue sometime around August of last year, advising Me that payments from Home for Good (HFG) had stopped in June. Lori also suggested that it's the same time of year that HFG typically sends out renewal packages for subsidy, so maybe they didn't receive My renewal package.

The fact is, HFG didn't send out any renewal package, their INTENT was to gaslight Sean! The previous year, Sean had to file a Claim against the City of Ottawa and HFG for cutting off his subsidy without any Notice to him, and without ever having been sent the renewal package they were accusing Sean of having failed to return! They characterized Sean's behaviour as 'defiant and irresponsible' for failing to return documents that were never sent!

The city of Ottawa does NOT have any legal or lawful right to stop providing subsidy to any One without written, legal and lawful Notice to Me (or any One else they may be providing subsidy to), and with sufficient, reasonable time to provide the necessary information without disruption of the provision. It's a breach of contract, and a breach of Trust.

The city of Ottawa does not send out a renewal package, discontinues paying My landlord rent without any Notice to Me, and Wishes to suggest that they are not criminally negligent, or AT THE VERY LEAST, civilly, morally and ethically negligent? Would any One suggest this type of behaviour is acceptable or fair?

Last year, after discussing the Matter with Lori, she said that she had 'contacted the city' (whatever that means), and confirmed that they had not received the renewal package and therefore could not renew the subsidy - apparently they didn't mention to Lori that they never sent the package or advised Me that subsidy would stop if they didn't receive certain information. Sean was as King of Lori who she was speaking with - Lori refused to tell Sean who she was speaking with and told Sean not to worry about it, she'll contact the city directly and let them know.

That was over nine months ago. In February of this year, Lori Simpson served Me with an unlawful 'N5', suggesting it was a 'third' and final violation of My lease agreement when I have never received any previous Notices regarding behaviour or conduct with MHI. When Lori served Me with the N5, I naturally presumed it was because she had not been able to resolve the outstanding rent Issue with HFG, but Lori clearly and quickly corrected Me, saying, "No, this has nothing to do with that. Don't worry about that...".

So naturally, I presumed the matter had been dealt with. From Your Latter (attached):

"I ask that You please contact HFG to discuss the missing payments. If You Wish, with Your consent, We are available to speak with someone at the HFG program to assist You in getting the subsidy reinstated."

I'm not responsible (liable) for the subsidy until HFG Gives Me Notice that they are no longer providing it, and they are required to Give Me sufficient Notice to make other rental arrangements so that the landlord doesn't suffer as a result of their negligence. So HFG is liable to You, not Me, and I am VERY interested to know why they are REFUSING to send Me renewal packages or even Notice that they have cut Me off without any opportunity for recourse. My belief is that this was done with INTENT to cause Me economic harm and potentially render Me homeless as their negligence results in My potential eviction.

Having said all of that, the FACT is, if the City of Ottawa and the government of Canada Wish to stop trespassing upon My right to freely dispose of My natural wealth without prejudice to foreign obligations, You can send Me a bill for the amount owing directly and I Will discharge as a financial obligation necessary for Sean's Benefit.

When You refer to 'Sean von Dehn', You are referring to an commercial person, who has nothing more than a Beneficial interest in Canada. That person has been placed in God's Trust, and King Sean, of House von Dehn is Acting as power

of Attorney over his person's affairs.

So I would graciously like to accept Your offer and see if You can elicit any response from HFG to find out why they haven't sent out any renewal package to Me, and why they failed to Give Me any Notice that they would be discontinuing My subsidy without Notice to Me or My landlord. You have just as much right to receive Notice of any change in the amount You should receive from the city as I do. If You didn't receive Notice of this change and why, they are liable to You for the full amount until You are paid WITH INTEREST. I Will advocate for You because I am sick and tired of the city of Ottawa presuming they can hold Me in bondage thanks to economic extortion of My wealth while presuming to act in My best interest? What a joke these People are. I look forward to knowing what HFG has to say regarding the Issue, and most importantly why they don't feel they had any obligation to advise You or Me that the subsidy would stop in violation of their legal obligations.

As I'm sure You are aware, I have a complaint against MHI for the unlawful eviction Notice served upon Me and for the harassment and discrimination I am receiving from the community for My health care choices. I would like to include Your letter and this email reply to it as evidence of the city of Ottawa's continued belligerence and negligence in the treatment of People they are allegedly there to Benefit and support.

This is related to another incident where there is now also a Claim against OW with the SBT for their failure to provide both You and HFG with requested information necessary for the subsidy renewal of the year in question, so this is now the EFFECT of the CAUSE of Action against Ontario Works for their negligence.

Also, I would like to request a copy of Ontario Works email to MHI advising You to destroy the email You received in error last year concerning My documents. OW was as King Me to delete the evidence of their breach of Trust, and I am wondering if they were as King of You to do this same, or if they mentioned anything to You about it at all? If they were as King of You to destroy the email, too, please forward Me a copy. If not, it confirms that they were only concerned with threatening Me, not with containing a breach.

Once again, thanks for bringing this to My attention and do Keep in Mind that payment is NOT an Issue. If You Wish to send Me a bill for the outstanding balance owing, I am happy to discharge Your debt against the equitable unlimited commercial Value of My Life's Purpose under God.

I look forward to hearing from You. Please confirm receipt and an estimated time for a reply. Please also let Me know if You would like to participate in either of the tribunals as a witness - I have one before the LTB and one with SBT, but both are run by the same judicial body - one judicial body covering several provincial sectors and I feel these matters overlap considerably because it seems that OW and HFG are conspiring together.

Have a Blessed day,

I would appreciate if You would also recognize that I am Acting as POA over the artificial person's affairs. My name is King Sean, House von Dehn, regardless how much You may enjoy gaslighting Me. If a boy can identify as a girl, a Sovereign Canadian can identify as King (because at least that is legally and biologically True).

Dear Lori,

Sorry, I suppose I should have sent this to You first, I misread the email and referenced the email address in bold type at the bottom, and that seemed logical because the Letter was Signed by Mary-Ann. No disrespect or slight of any kind intended. In fact, I'm glad You were as King for Me to respond to You regarding this Matter because I would like for this email thread to be entered as evidence regarding Our Matter before the LTB Tribunal. HFG work closely with city counsellors, People like Wilson Lo in particular, and HFG Program is just a corporate representative extension of the City of Ottawa (and their intentions). It's important for People to know that the very People responsible for Creating these programs, are also responsible for abusing those dependent on them for subsistence and *Creating* homelessness by cutting off the same individuals the program was designed to protect from homelessness without any notice to the individual at all, then gaslight and characterize the marginalized homeless as being 'incapable of maintaining housing' so that they can impose all kinds of unconstitutional demands upon an individual Wishing to receive the subsidy in future. Abusing People into compliance, compelling them to consent to violations of their inherent Charter rights in order to receive the most basic social protections.

I look forward to knowing why HFG didn't think it was important to contact Me regarding this Matter.

Let Me know if You have any Issues with this incident being added to the LTB information as evidence of the City of Ottawa's gross negligence causing harm to the People they were Trusted to care for.

Thanks, hope this email finds You well,
